Electric Vehicles & ECCI Charging Stations

Eugro Motors is a manufacturer and wholesaler of world-class transportation products for sale worldwide with operation market in the United States and Canada, South America, Europe and the Middle East.

Utilizing state-of-the-art production facilities in Linhai, Zhejiang and Guangzhou & Shenzhen, Guangdong in China and a team of experienced engineers and designers, Eugro Motors products line of gasoline and electric powered motor scooters, ATVs and UTVs offers cutting-edge, modern styling, reliable performance and outstanding value.

Recently Eugro Motors launched ECCI (Electric Cars Charging Infrastructure), its first high power DC fast charger that complies with the GB standard.

The new chargers will be manufactured at Eugro Motors recently established base for electric vehicle chargers in Zhejiang, China.

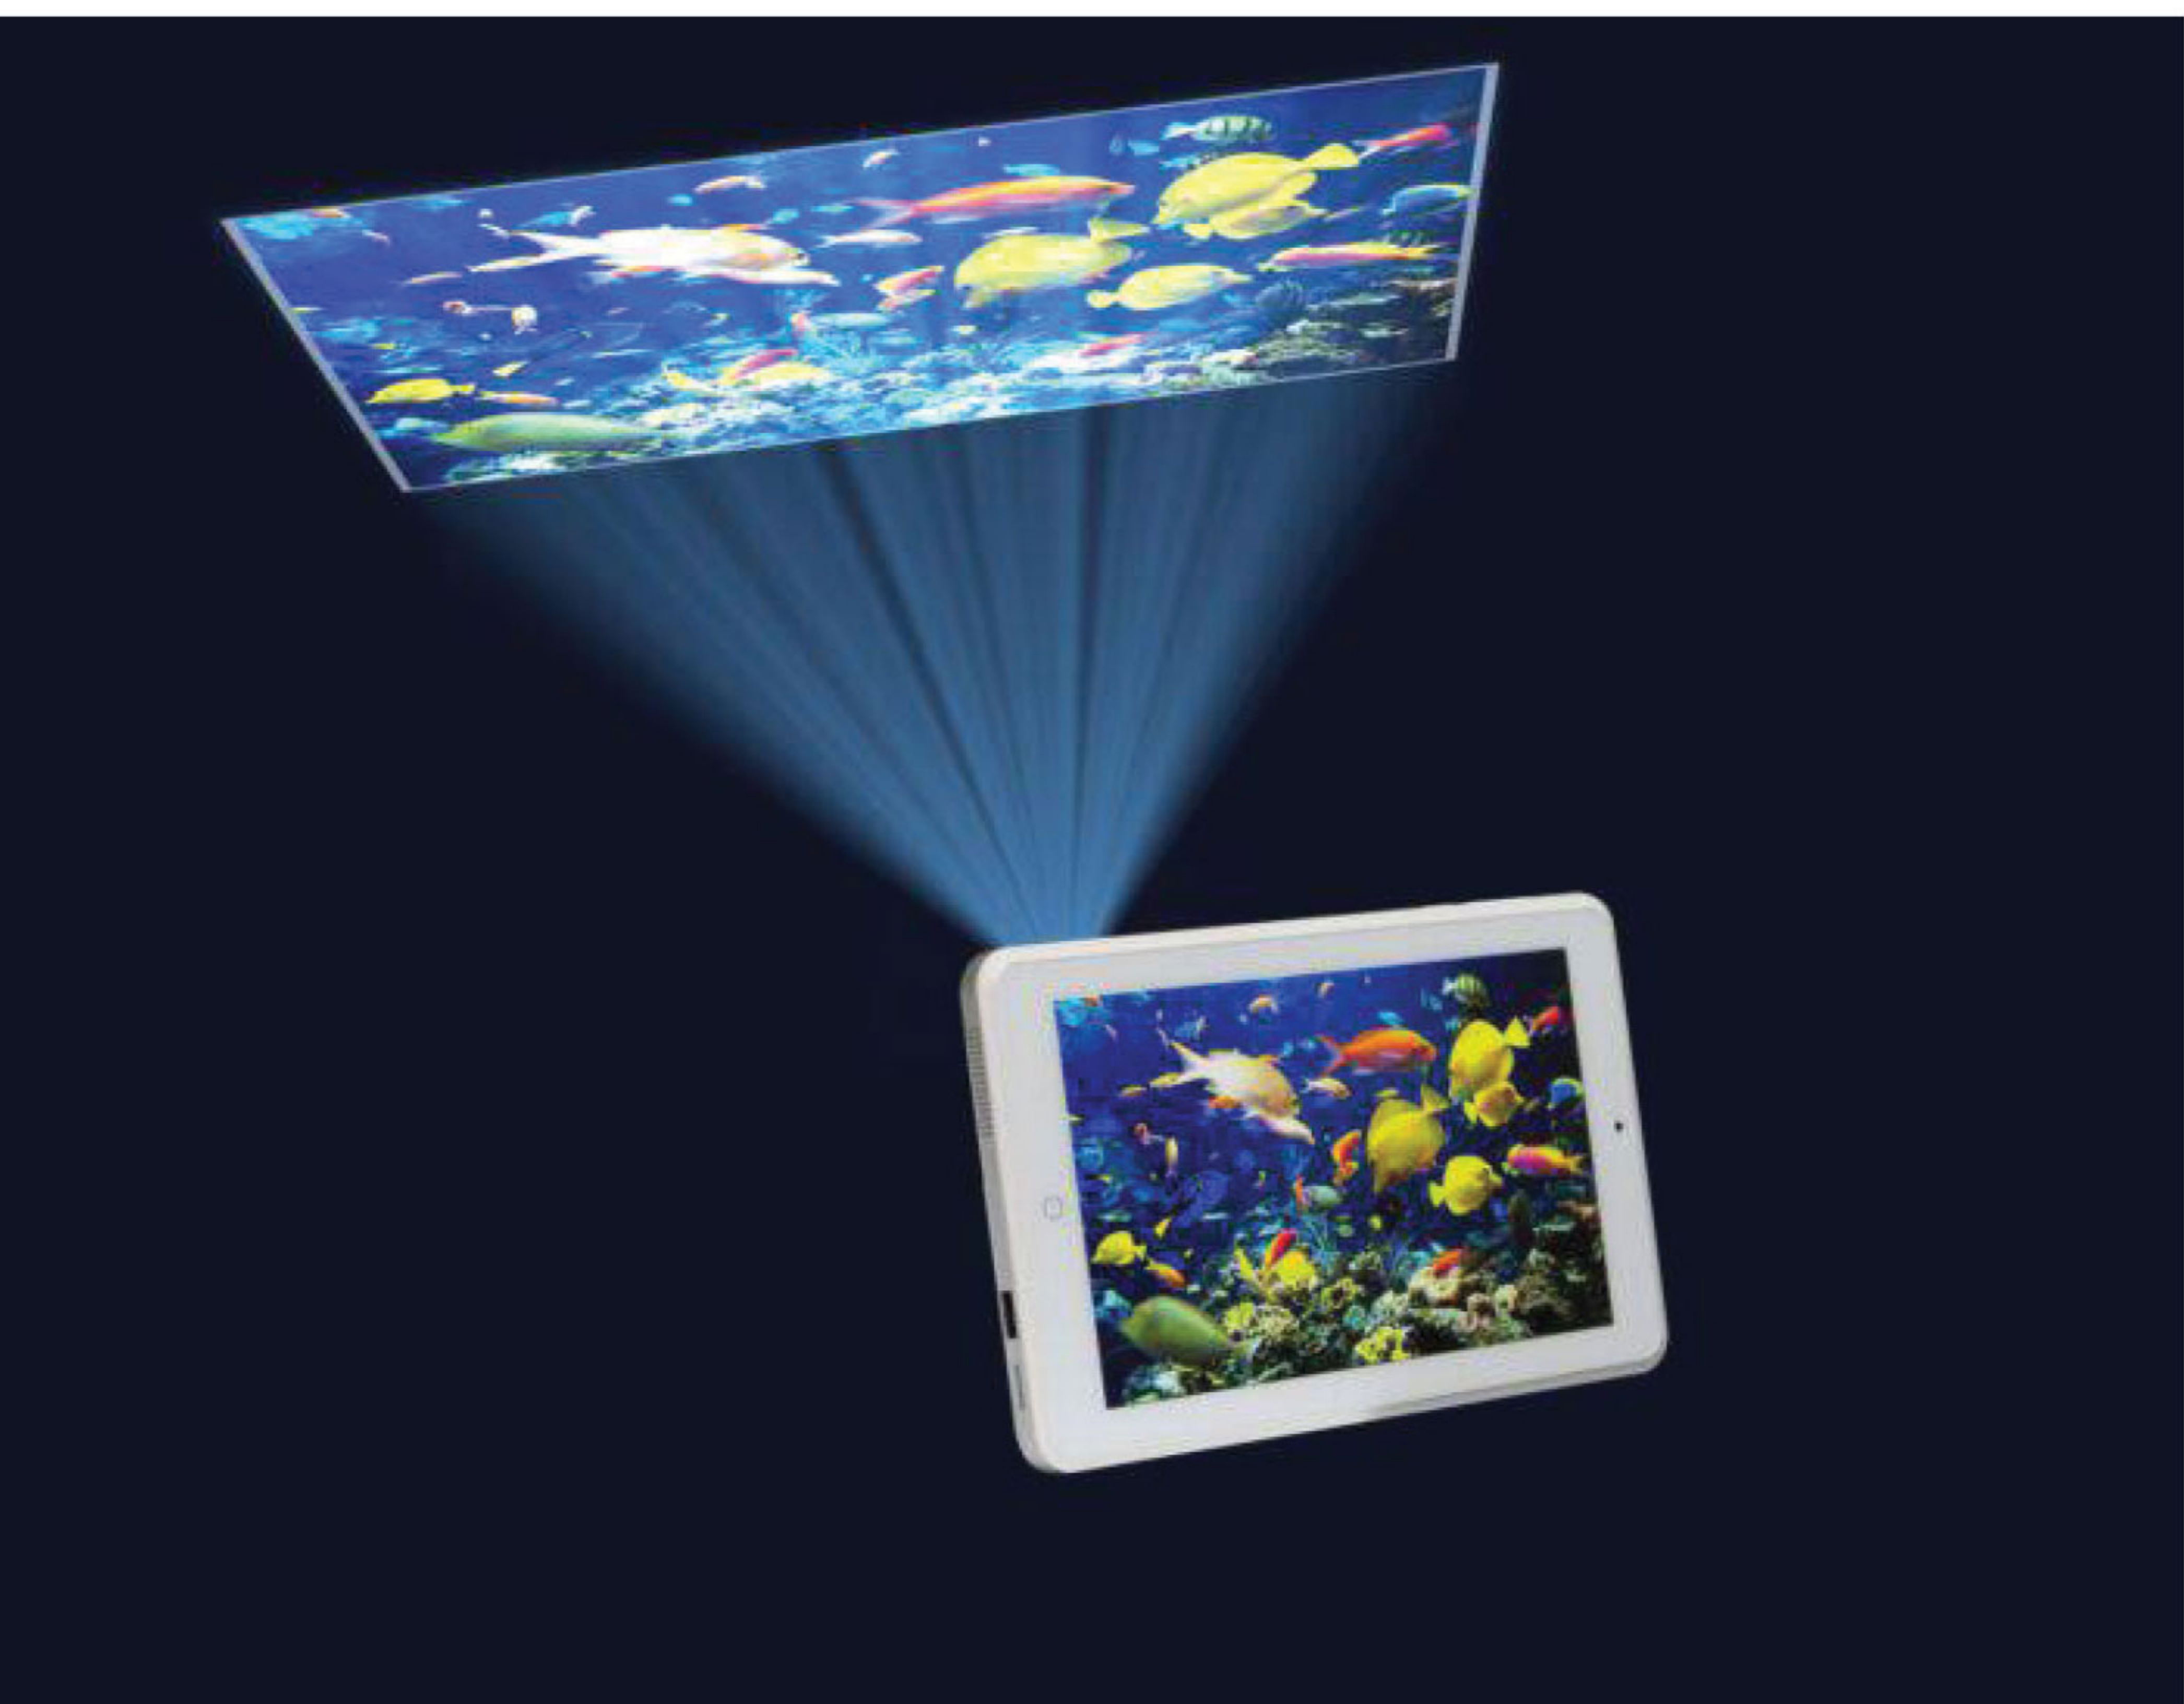

Intelligent charging pole is a charging equipment for electric vehicles. Functions like charging interface, human-machine interface are provided for monitoring the charging process. The charging pole is produced in two types wall mounted and floor stand. It is widely used in residential, commercial and all kinds of indoor and outdoor parking lots.

Charging Pole uses embedded micro controller system as the main controller. IC card management, LCD display, charging expense calculation, charging management, telecommunication are default functions.

Administrators can monitor the running condition of the AC/DC intelligent charging poles in real-time by the data transmitted to the background master station, which guarantees the stable and healthy operation of the system.

Eugro Motors also offers custom designed Electric Cars Charging Infrastructure management solution powered by innovative IT technology.

All Eugro Motors products are offered with full product certification (U.S. EPA and Department of Transportation for sale in the USA, and EEC certification for sale in the EU).

Eugro Electronics is a manufacturer and wholesaler of world-class consumer electronics and home appliances worldwide with current distribution markets in the United States and Canada, South America, Europe and the Middle East.

Utilizing state-of-the-art production facilities in the Linhai, Zhejiang and Guangzhou & Shenzhen, Guangdong in China and a team of experienced engineers and designers.

Eugro Electronics's split system models integrate cutting edge technology including the industry's top-class energy-saving design, a wide array of airflow control and cooling operation.

Eugro branded Smartphones, Tablets and Accessories are one of the leaders in the wholesale distribution of cellular products of all levels and services to both domestic US and international clients with very competitive pricing.

Eugro Energy offers a wide range of products and services for the power generation from renewable energy sources, like solar and wind power.

The global demand for power is continuously increasing, while traditional energy sources are becoming scarcer and environmental concerns are rising.

This way, Eugro Energy helps to accelerate the progress and plans to continue to invest in renewable energy projects.

✓ OUR PRIORITY IS QUALITY
